Tools: Java, Maven, Spring (DI, Security, MVC, WebFlow, Data), JMS/HornetQ, CXF, JPA/Hibernate, dbmaintain, slf4j/logback, Apache commons, JUnit/Selenium, JSP, HTML, CSS, JavaScript, jQuery, Tomcat, Hudson

2. Android applications development
Tools: dagger, picasso, retrofit, rxjava, otto, butterknife, calligraphy, websockets, google analytics, flurry

3. Tasks and projects estimation

Pixolart   Sep 2010 — Jul 2011
iOS Developer

iOS games development. Technologies: Objective-C, Unity3D, Facebook API, Twitter API

Sibagropribor   Nov 2009 — Apr 2010
C# Developer

Development of client-server application for processing data from flowing milk analysers. Used technologies: C #, Windows CE, MySQL, SQLite

SKILLS

Understanding of OOP, OOAD, Algorithms and data structures.

Java:
Spring Framework (DI, Security, MVC, WebFlow, Data)
Guice, Dagger
Maven, Gradle, Ant
JDBC, JPA/Hibernate
dbmaintain, liquibase, flyway
slf4j/logback
JUnit, Mockito, Selenium
CXF
Vert.x
Tomcat, Jetty
HTML, CSS (Bootstrap/Foundation), JavaScript (jQuery, AngularJs, React)
Apache commons, Guava libraries

JMS
JSP
Java FX
XML, JSON

DBMS:
PostgreSQL, MySQL, MongoDB, Neo4j, db4o;

CI:
Jenkins, Hudson, Travis CI

Version control system:
Subversion, Git.

Issue trackers:
Jira, Redmine, Github issues

Java Android SDK
dagger, picasso, retrofit, rxjava, otto, butterknife, calligraphy, websockets, google analytics, flurry, mixpanel, crashlytics.

Other languages:
Kotlin, Groovy, Python;

LANGUAGES	Russian (native), English (upper-intermediate)

EDUCATION

Information Technologies   2009 — 2011
Novosibirsk State University

Master's degree

Information Technologies   2005 — 2009
Novosibirsk State University

Bachelor's degree

INTERESTS	new technologies, web, high load/distributed systems, long-distance running, traveling
